## SUMMARY

MERN Stack Developer with 20+ GitHub projects, ranging from simple UI pages to complex e-commerce applications. I build reliable, scalable solutions with clean UIs, secure APIs, and strong application logic, bringing the kind of hands-on ability that teams can trust from day one.

## EDUCATION

**B.Tech in Computer Science and Engineering**                                2021 – 2025
Central Institute of Technology, Kokrajhar                                *Assam, India*

## SKILLS

| | |
|---|---|
| **Frontend** | React, JavaScript, HTML, CSS, Tailwind, Bootstrap |
| **Backend** | Node.js, Express.js, MongoDB, Python |
| **Tools** | Git/GitHub, REST APIs, Vite, Cloudinary, Stripe, Redis, Figma |

## EXPERIENCE

**Frontend Developer Intern**                                Jun 2024 - Jul 2024
Codtech IT Solutions                                        *Remote, India*

- Created a responsive portfolio site and a localStorage-based to-do app, improving load performance by 30%.
- Converted Figma designs into clean, pixel-perfect UIs using HTML, CSS, and JavaScript.

**Machine Learning Intern**                                Jun 2023 - Jul 2023
NIELIT Guwahati                                            *Assam, India*

- Developed an early leaf-disease detection system enabling faster diagnosis and improved disease management.
- Trained a custom CNN on the PlantVillage dataset with 54k+ images across 39 classes.
- Achieved 93% accuracy through optimized preprocessing and fine-tuned model architecture.

## PROJECTS

**Full-Stack E-Commerce Web App.** Velora is a MERN-based e-commerce platform styled with Tailwind CSS, offering Stripe payments, coupon support, and a modern dark UI. (Try Velora)

**MERN Product Store App.** FitRack is a full-stack product management application featuring create, edit, search, and delete functionality with a fully functional REST API. (View FitRack)

**Expense Tracker App.** BudgetWise is a React + Bootstrap expense tracker with an intuitive dashboard, visual reports, and a complete transaction history. (See BudgetWise)

**Movie Discovery App.** CineScope is a React + Vite movie explorer using the OMDb API, featuring a full Netflix-inspired UI with IMDb filters, rich movie cards, and an interactive details modal. (Explore CineScope)

## CERTIFICATIONS

**Full-Stack Web Development.** (credential)                                2025
Udemy

**Responsive Web Design.** (credential)                                    2025
